

Allied Data Sheet		Product ID ALV-QP10P1-04		
PRODUCT NAME				
QP VALVE				
MODEL NO.				
ALV-QP10P1-04				
DESCRIPTION OF THE PRODUCT				
<p>ALV Series QP Valve(Quick Exhaust & Breather Protection valve)can be divided into aluminum alloy valve and stainless steel valve. Users can choose in-line or Namur QP valve saccording to site installation requirements. Pneumatic actuators have many specifications and different air consumption. Therefore, we provide three sizes of QP valves to meet the diverse selection requirements.</p>				
Valve Specification				
Material of theValve(10)	Extruded Aluminum with hard Anodized	Flow rate (Orifice)	Inlet	10mm
Installation interfaces to solenoid valve (P1)	In line		Outlet	10mm
Port size(04)	G1/2" (or NPT)	Medium	less than 40µm filtered and dried air (2-8bar)	
Mounting	To Actuator	24×32 Namur	Working Temperature	-10℃~60℃
	To S.V.	In line
